Annual Report

OF THE

ALBERTA HOSPITALIZATION BENEFITS PLAN

1967

HOSPITAL SERVICES SECTION

DEPARTMENT OF HEALTH
PROVINCE OF ALBERTA

J. D. CAMPBELL, M.Com. (Queen's), F.C.A., R.I.A.,
Deputy Minister

ANNUAL REPORT
OF THE
ALBERTA HOSPITALIZATION BENEFITS PLAN
1967

Digitized by the Internet Archive
in 2021 with funding from
Legislative Assembly of Alberta - Alberta Legislature Library

December, 1968

To HIS HONOUR, GRANT MacEWAN,
Lieutenant Governor of the Province of Alberta.

SIR:

I have the honour to transmit herewith the Annual Report of the Hospitals
Services Section of the Department of Health for the year 1967.

I have the honour to be, Sir,

Your obedient Servant,
J. DONOVAN ROSS, B.A., M.D.,
Minister of Health.

December, 1968

TO THE HONOURABLE DR. J. DONOVAN ROSS,
Minister of Health,
Administration Building, Edmonton, Alberta.

SIR:

I have the honour to submit herewith the Annual Report of the Hospitals Services Section of the Department of Health for the year 1967.

I have the honour to be, Sir,

Your obedient Servant,

J. D. CAMPBELL. M.Com. (Queen's), F.C.A., R.I.A.,
Deputy Minister — Hospitals Services Section

INTRODUCTION

This report covers the calendar year 1967 which is the ninth complete year of the operation of the Alberta Hospitalization Benefits Plan.

Taken with the previous reports the evolution of the plan is presented. It is difficult to measure the subjective aspect of patient care statistically. The financial implications of the Plan are presented in some detail in an attempt to reflect the nature and effect of the various changes which were implemented during the year in the continuing refinement of the Plan.

The Hospital Services Section represents the administrative arm of the Provincial Government. We must acknowledge our awareness and appreciation of the numerous agencies whose efforts are reflected in the facts presented in this report. This applies first to the attainment of an improved level of patient care and second the diminution of the administrative problems arising from an attempt to more effectively utilize the funds expended towards the provision of hospitalization to the residents of the Province of Alberta.

Finally, but nevertheless very significant, is our appreciation of the attitude of the Executive Committee of Government whose co-operation and understanding has made it possible to bring about the development which has been attained in the current year. In this area our major contact has been through our Minister, Dr. J. Donovan Ross.

We trust that the recognition of maturity evidenced through the creation of a separate Division during the year has been warranted as the Alberta Hospitalization Benefits Plan becomes one of the major contributors to the drain placed on the provincial yearly budget.

1. ADMINISTRATIVE RESPONSIBILITY

The Department of Health Act, Chapter 27 of the Statutes of Alberta, 1967, was passed and assented to on 11 April, 1967, which states:

"The Department shall be divided into two sections:

(a) The Hospital Services Section, which shall be responsible for the operation of programs to be provided for the people of Alberta under The Alberta Hospitals Act and The Nursing Homes Act or such parts of them as the Minister may desire and such other programs as the Minister directs."

Section 4 of The Department of Health Act, Chapter 27 of the Statutes of Alberta 1967 permits the appointment of a Deputy Minister of Hospital Services, pursuant to The Public Services Act 1962. Under Order-in-Council 764/67 dated 2nd May, 1967, John Douglas Campbell was appointed as the Deputy Minister of Hospital Services effective 1st May, 1967.

The primary function of the Hospital Services Section as spelled out in The Department of Health Act lies in the administration of The Alberta Hospitals Act and The Nursing Homes Act covering the detailed policy established by the Executive Council through the Minister of Health.

Although the detailed responsibility and authority for expenditures in the individual hospital has been delegated as far as possible to the local areas to support local autonomy, the overall responsibility for the expenditure of public funds remains with the Provincial Government. The establishment and effective operation of the indirect control approach has become an important function of the Hospital Services Section of the Department of Health.

As the Hospital Services Section is primarily the paying agent of the Provincial Government for hospitalization, the financial aspects assume a predominant role in the duties of the Section. The Alberta Hospitalization Benefits Plan is a joint Federal-Provincial Plan covered by an agreement involving financial relationships involving monthly payments on account and final settlement which is administered by the Section. A close working arrangement has been developed between administrative boards of the hospitals and the Hospital Services Section in all aspects of financing.

Mr. A. J. Nykoly, B.Com., C.A., the Controller for the Section and his staff assume their major responsibility in this area.

A close relationship between the hospitals and the Hospital Services Section has been established. This is accomplished through the media of periodic reports plus an organized program of inspection of the hospitals by members of the Hospitals Services Section. This program is supplemented by a Liaison Committee relationship between the Department and the Alberta Hospital Association.

Mr. B. H. Foster is involved in the inspection procedure and with his staff forms the direct link between the hospitals and the Hospital Services Section.

The primary purpose of the inspection service, in keeping with the implementation of local autonomy, is to assist rather than direct the local hospital administration. Direct consultation services to the hospitals has

been delegated to the Alberta Hospital Association rather than to attempt to cover it under direct provincial jurisdiction. The delegation of this service does not imply that the Hospital Services Section has abdicated this form of contact in its entirety.

The significance of medical care in relationship to patient care has been recognized. Although no medical personnel have been appointed to the permanent staff of the Hospital Services Section, a Liaison Committee of the Hospital Services Section and the College of Physicians and Surgeons and the Alberta Medical Association has been very active. Problems encountered involving medical matters are referred to the committee and it has operated effectively as a means of communication and advice between the medical profession and the Government.

The direct relationship between the Hospital Services Section and the individual hospital in respect to financing of facilities has resulted in a separate section operative within the Hospital Services Section. Mr. V. J. Horejsi formerly in the inspection division assumed acting charge of this section. He and his staff have jurisdiction over this area supplemented by internal committees in construction and equipment. The committees meet regularly to review the requests made by the hospitals. The aspects of uniformity of treatment and the development of acceptable yardsticks represent a dominant part of the committees' work.

Mr. A. H. McLean has been allocated the responsibility for the section dealing with research and development. This area is involved with both provincial and federal statistics in respect to health services.

Mr. Leo Hill handled the general office routine and was involved in the interrelationships with other areas of the provincial and federal governments and outside professional agencies during 1967 and up to 1 February, 1968. At this date, Mr. D. A. Richardson, B.A., joined the Hospital Services Section staff and assumed the responsibilities previously held by Mr. Hill.

The organizational pattern of the Hospital Services Section reflects a functional base. This is supplemented by committees recognizing the interrelationships between the various sections. The relatively small number of staff enables this form of organization to be effective both in communication and co-ordination.

In summary, the administrative organization of the Hospital Services Section has been developed to meet, in the most effective manner, the administrative functions which have been delegated to it. Details have been reduced and the major efforts are directed towards the control of the spending of public funds in a manner which will maximize the effectiveness of local autonomy.

Cost of Administration

The administration costs of the Hospital Services Section can only be interpreted against the backdrop of the effectiveness of the relationships between the Section and those persons and groups with whom the Section works. According to the information available these relationships are healthy and up to date. On the basis of this assumption the financial aspects presented for the administration of the Hospital Services Section indicates the application of the principles of cost control present within the Section which are applied to the broad hospital spectrum.

HOSPITAL SERVICES SECTION

Table 1 presents the detail of the administration costs of the Hospital Services Section for the fiscal years ending 31st March, 1964 to 1968 inclusive. The increase in the current year over that of the previous year (10.5%) approximates the price level increase applicable to the hospitals for the calendar year 1967. With the staff complement held steady the increasing level of expenditures administered resulted in a reduction of the percent of administration costs of expenditures made under the Alberta Hospitalization Benefits Plan by the Provincial Government. The cost of administration per capita increase reflects the increase in the price level previously referred to.

Table 1 indicates a very low cost of administration in relation to the expenditures made by the Hospital Services Section. A comparative examination of the costs of administration under provincial jurisdiction indicates a favourable relationship ranging on a very conservative estimation from only 10% to 20% of the costs involved in the other provincial plans across Canada when related to the expenditures made.

Table 2 sets out the details.

TABLE 1:
HOSPITAL SERVICES SECTION - ADMINISTRATION COSTS

FISCAL YEARS ENDED MARCH 31					
	1964	1965	1966	1967	1968
Automotive Equipment	\$ -	\$ -	\$ -	\$ -	\$ -

TOTAL	\$239,785.34	\$273,261.19	\$286,825.82	\$296,776.27	\$329,848.02

TABLE 2: HOSPITAL SERVICES SECTION
COST OF ADMINISTRATION IN COMPARISON WITH EXPENDITURES MADE BY THE
PROVINCIAL GOVERNMENT UNDER THE ALBERTA HOSPITALIZATION BENEFITS PLAN

	Fiscal Years Ended March 31st				
	1964	1965	1966	1967	1968
1. Expenditures made by the Provincial Government under the Alberta Hospitalization Benefits Plan (\$000's)	\$60,598*	\$69,556	\$77,503	\$95,271	\$114,024
2. Cost of Administration (Table 1) (\$000's)	240	273	287	297	330
3. % of 2 to 1	.39%	.39%	.37%	.31%	.29%
4. Residents Covered under Alberta Hospitalization Benefits Plan ('000's)	1,393	1,420	1,440	1,453	1,481
5. Cost of Administration Per Resident	17¢	19¢	20¢	20¢	22¢
6. Construction Grants (\$000's)	\$ 5,080	\$ 3,630	\$ 3,946	\$ 3,203	\$ 4,980
7. Nursing Home Care (\$000's)	\$ -	\$ 1,210	\$ 2,775	\$ 4,045	\$ 6,255

*This figure does not include costs of construction grants and nursing home care included under the jurisdiction of the Hospital Services Section.

2. CHANGES AND POINTS OF INTEREST IN THE PLAN

The operation of the Alberta Hospitalization Benefits Plan involves the government as a major paying agent. As such the relationship with the hospitals entails not only a determination of the amounts to be paid but as well an awareness of the time of payment. This latter aspect becomes significant from the standpoint of the problems of financing which are faced by the hospitals.

During the year 1967 special attention was directed towards the area of financing and steps were implemented to reduce the pressures which faced the hospitals arising out of increasing price level, expansion of services and the development of more orderly procedures in the presentation of claims. Estimated final settlements were made in December of 1967 whereas these had been previously made after a review of the audited financial statements which resulted in a lag in additional payments of from three to five months.

The variation in the co-insurance factor between the active treatment hospitals and the auxiliary hospitals had caused a problem in the movement of patients according to need. At the end of the year 1967 this variation was reduced as effective 1st January, 1968, the auxiliary hospital daily co-insurance was raised from \$1.50 to \$2.00.

The indices program for hospitals in Alberta implemented in 1966 was stressed throughout the year from the standpoint of its effective utilization by the individual hospitals. The Hospital Services Section took an active part in this area during the year working directly with the boards and administrators of the hospitals in assessing variations which appeared.

An examination of the basic rate structure which existed was made during the year and the first steps were taken towards the implementation of special payments covering the area of extraordinary maintenance. This procedure removed these extraordinary items from the basic rate and at the same time provided the hospitals involved with payment prior to the date that payment would be normally made.

The development of an organized program of rehabilitation implemented in 1966 covering auxiliary hospitals continued in 1967. Assessment teams began operations on a selected group of auxiliary hospitals and although the progress has not been as rapid as expected the results attained in 1967 have been considered satisfactory. This project centered in Calgary and Edmonton will continue during 1968 and will be financed as a separate project.

3. FINANCING

A. General

Hospitalization services are provided to the residents of the Province of Alberta from several sources. The most significant is represented by the hospitals whose costs are met by the hospitalization plan on a cost incurred basis. Other services are obtained through the payment in the form of a patient day payment to Federal and other Contract hospitals within the Province and other hospitals situated outside of the Province. Persons receiving services in the Alberta hospitals who

are not residents are assessed a flat rate per patient day by the hospital.

In addition to the ordinary hospital services referred to as in-patient services, out-patient services are provided to the residents under the hospitalization plan, represented by a schedule of charges designed to represent the cost incurred in providing these services.

The level of cost for hospital services paid by the hospitalization services is that represented by standard ward care. Hospitals providing services over and above the standard ward level must assess the patients involved for the additional costs, the limits in respect to which are set by regulations. The amounts assessed are considered to represent the cost of the service involved.

In the case of Alberta hospitals, the Provincial Government has accepted the responsibility of the capital costs involved in the area of buildings and equipment. Outright payments are made in the equipment area and grants in the construction area. In addition to grants in the construction area the Provincial Government has accepted the financial responsibility, yearly, for the repayment of debentures and related debenture interest on borrowings incurred at the time of construction.

The operational costs of hospitals are closely allied to the unit of service represented by hospitals in the form of bed days. A considerable period of time may elapse between the time the decision is made to provide additional beds and the time when they begin to generate hospital operational costs. Although decisions and capital costs may be incurred in one year the operational costs attendant may lag for several years. The operational costs are a continuing yearly cost as against the original capital cost which is not a continuing cost. At the present level of costs, capital costs per bed range in the vicinity of from \$12,000 to \$15,000 per bed and the yearly operating costs in the vicinity of \$7,500 per bed. The above factors serve to indicate the importance in the control of costs of exercising care in the approval of new beds. At the present time beds previously approved are coming into operation and are creating a built-in increase in operating costs.

The examination of the operational costs has been made as to:

- (1) the operational areas involved in the increase in costs, and
- (2) the impost borne by the various partners taking part in the financing of the cost increases.

B. Total Cost of Hospitalization

Although the Alberta hospitalization includes the majority of the costs of hospitalization, certain areas are not included. These are referred to as other hospitalization costs including non-eligible hospitalization services for which the patient is required to meet the costs, excess and unapproved costs which represent an owner's responsibility, construction grants paid by the Province and miscellaneous items of research which are provided by grants from various sources. These are set out in detail in table 7.

Table 3(a) provides the information as to the total cost of hospitalization, whereas Table 3(b) represents the costs of hospitalization covered under the

HOSPITAL SERVICES SECTION

Alberta Hospitalization Benefits Plan. Although the Alberta Hospitalization Benefits Plan is a joint Federal-Provincial Plan, certain costs are not accepted for sharing purposes by the Federal Government. The major items included in the costs under the Alberta Hospitalization Benefits Plan which are not shared by the Federal authorities involve the patients' co-insurance referred to in Table 3(b) as Patients' Share, as well as capital costs re debenture repayments and debenture interest.

C. Partners in the Financing of Cost Increases

Table 4 sets out the analysis of the costs increases in the total cost of hospitalization involved in 1967 over the year 1966. It provides an analysis of the data presented on Table 3(b).

TABLE 4:
ANALYSIS OF THE INCREASE IN TOTAL HOSPITALIZATION COSTS
IN 1967 OVER THE COSTS INCURRED IN 1966 ON THE
BASIS OF THE PARTNERS INVOLVED

	Amount	%
A. Patients' Share of 1967 Cost Increase	\$ 2,543,558	10.8
(1) Co-insurance rate increase and implementation of admission charge increase applied to complete year (implemented July 31, 1966)	\$ 1,596,220	
(2) Non-eligible rate adjustment increased contributions by non-eligible patients in 1967	947,338	
	<u>\$ 2,543,558</u>	
B. Owners' Share of 1967 Cost Increases	2,505,407	10.7
(1) Increase in equalized assessments resulting in an increased contribution by rate payers applying the 4 mill levy	320,107	
(2) Increase in excess and unapproved costs and site ownership and preparation	2,185,300	
	<u>\$ 2,505,407</u>	
C. Provincial Share of 1967 Cost Increases	10,935,839	46.6
(1) Services not covered under Federal-Provincial Cost Sharing Agreement:		
(a) Co-insurance and bad debt cost increase in providing benefits to pensioners and holders of medical cards or people unable to pay hospital accounts	138,798	
(b) Cost increases for out-patient services in facilities not included in Agreement	480,587	
(c) Capital cost increases which are not shareable in Agreement	2,865,519	
(d) Excess and unapproved costs and site ownership and preparation re provincially owned hospitals	707,428	
(2) Services covered under Federal-Provincial Cost Sharing Agreement:		
(a) Cost increase related to in-patient care	6,543,910	
(b) Cost increase related to out-patient care	199,597	
	<u>\$10,935,839</u>	
D. Federal Share of 1966 Cost Increase	7,499,216	31.9
(1) Services not covered under Federal-Provincial Agreement:		
(a) Cost increase related to special research in hospitals	(5,493)	
(b) Cost increases in grants towards hospital construction	(16,304)	
(2) Services covered under Federal-Provincial Agreement:		
(a) Cost increase related to hospital in-patient care	6,172,557	
(b) Cost increase related to out-patient care	1,348,456	
	<u>\$ 7,499,216</u>	
Total 1967 Cost Increase Borne by All Participants	\$23,484,020	100.0

TABLE 6:
ANALYSIS OF 1967 OPERATIONAL COSTS INCREASES
OVER 1966 OPERATIONAL COSTS INCREASES

Total Cost Hospitalization 1966	\$ 109,850,650		
Increase in Costs 1967	\$ 23,484,020		
		% of total increase	% increase over 1966
1967 Cost Increase due to			
(1) Additional beds brought into service accounted for an additional 313,492 rated bed days during 1967 and gave rise to an estimated cost of	\$ 8,145,000	34.6	7.7
(2) Price level:			
Increasing costs attributable to salaries, wages, supplies, etc., during the year in the active treatment and auxiliary hospitals	11,883,126	51.0	10.8
(3) Construction costs paid outright covering new construction and renovations increased during the year	1,114,069	4.6	1.0
(4) Out-Patient services volume provided during the year increased	2,206,860	9.4	2.0
(5) Contract hospitalization services purchased increased			
Within the Province	\$ 12,084		
Outside of the Province	122,881	134,965	.4
	\$23,484,020	100%	21.5%

D. Operational Areas Involved in the Increase in Costs of Operations

Table 6 presents the data covering the increase in total hospitalization costs in 1967 over the 1966 level, subdivided as between the areas which are considered relevant.

E. Hospital Construction

As the beds in use within the Province play a significant part in the determination of the level of operating costs it is considered relevant that this section be included under the Financial Analysis of Operating Costs.

Hospital construction in Alberta has progressed at a steady rate. This is evidenced by a comparison of the total beds in service in 1958 as against 1967. In 1958 there were 7,441 general hospital beds, 1,447 bassinets

TABLE 7:
OTHER HOSPITALIZATION COSTS

	1966	1967
1. Patients' Responsibility		
(a) Patients not eligible for benefits		
Non-residents	\$1,210,969	\$1,464,173

and 665 auxiliary hospital beds in service, providing approximately 3,094,000 bed days for 1958. In 1967 there were 10,061 general hospital beds, 1,669 bassinets and 2,293 auxiliary hospital beds, providing 4,543,000 bed days in 1967. The patient days increased from 2,400,000 in 1958 to 3,275,000 in 1967. The comparative amount of the increase of bed days and patient days indicates that the construction of beds has outpaced the use of beds by approximately 594,000 bed days or the equivalent of a 1,630-bed hospital constructed, staffed, and not required to meet the current patient load demands. The comparative figure for 1966 was an 850-bed hospital. The continued increase in this area of unused capacity plays a significant part in the increase in operating costs. Insofar as the beds coming into use have been approved for construction in prior years, it is difficult, if not impossible, to prevent the corresponding substantial increase in operating costs related to this particular aspect.

In the following years of 1968 and 1969 our projection indicates that approximately 440,000 additional bed days will come into existence. With the effect of the nursing home plan and out-patient treatment plan maturing there will be a distinct reduction in the need for increased patient days which might otherwise develop if these factors were not present. This appears to indicate a further increase in unused bed capacity coupled with the attendant costs attributable at the present level of approximately \$20.00 to \$25.00 a bed day.

As stated in the 1966 report the yearly increase in the patient day load has approximated 100,000 patient days. The variation between the bed days and the patient days at 31 December, 1967, would indicate that no additional beds would be required for at least a five to seven-year period based on an 80% to 85% occupancy factor and other factors being comparable.

Tables 8, 9, 10 and 11 are presented to set out the estimated effect of existing approvals of construction.

4. FINANCIAL ANALYSIS Source and Application of Funds for the year ended 31 December, 1967

General

The financial responsibility for hospital operational costs and construction has been accepted by the Provincial Government within limits which have been established by reasonableness. Where costs in either area have been determined to be over and beyond a reasonable level, they are classified as excess costs, the responsibility for which is left with the owner of the hospital. The owners are left with the financial responsibility of providing the necessary working capital, the provision of the site and covering all costs labelled as "unapproved costs" which are costs not considered applicable to the provision of hospitalization services and, in addition, the excess costs previously referred to above.

A. Total Hospitalization Covered Under The Alberta Hospitalization Benefits Plan

A financial analysis was made of the flow of funds for the calendar year 1967 from the audited financial statements of all hospitals, other than contract hospitals, situated in Alberta. The information is presented in Table 12 to highlight the owners' responsibility.

TABLE 12:
OWNERS' CONTRIBUTION FOR
ALL ALBERTA HOSPITALS, OTHER THAN CONTRACT HOSPITALS,
UNDER THE ALBERTA HOSPITALIZATION BENEFITS PLAN
for the year ended December 31, 1967
(142 Hospitals)

OWNERS' RESPONSIBILITY

1. <u>Excess Costs</u>	\$ 2,882,025
2. <u>Unapproved Costs</u>	240,023
3. <u>Site - Ownership and Preparation</u>	867,931
	<u>\$ 3,989,979</u>

The owners met their responsibility from the following sources:

(a) Reduction of working capital	\$ 7,862	
(b) Funds received for capital asset additions in excess of actual expenditures made during the year	339,198	
(c) Direct owner contributions of funds	2,578,728	
(d) Interest and donations received during the year	1,064,191	<u>\$ 3,989,979</u>

The owners' contributions, plus interest and donations received during the year, were short of the owners' responsibility by an amount of only \$347,060. This amount was provided by drawing upon existing working capital and funds received in excess of capital asset requirements during the year. This applied to the voluntary active treatment hospital sector of the plan.

The detailed analysis of the working capital position of hospitals indicated that the working capital was maintained at the year end. The increase in the Provincial advances, amounting to \$1,486,937.86, arose from the increased rates of monthly payments on account due to rising costs implemented during the year. This change affected the liquidity of the working capital. The increased liquidity of the working capital was evidenced in the increase in bank and temporary investments of \$1,828,207.72. This was favourably affected by the improvement in the settlement of claims by the Provincial Government. Accounts receivable from the plan by the hospitals were reduced \$1,377,284.30. An offsetting factor contributing to the reduction of liquidity occurred in the form of an increase in accounts receivable of \$773,278.12 from patients and others. This reflected the large number of Alberta Health Plan accounts unpaid at 31 December, 1967.

The analysis of fixed or long-term capital expenditures showed a continued expansion in expenditures on capital assets. During the calendar year, the costs of buildings and equipment increased by \$21,871,956.06. The major portion of these costs were financed by the issue of debentures (\$11,913,603.36), construction grants (\$5,991,093.30), and equipment grants (\$4,332,553.61). The excess of capital funds received over the capital expenditures made arose from the method of financing.

The repayment of debentures issued in the current year amounted to \$4,488,857.23 as against new debentures issued of \$11,913,603.36. With stabilization in the hospital construction program, as evidenced in the auxiliary hospital segment, this relationship will be reversed.

Tables 17-22 provide details supporting the amounts referred to above, subdivided as between active and auxiliary hospitals and re-subdivided as between municipal, voluntary and Provincial ownership.

B. Municipal Hospitals

1. *Approved General Hospitals* (Table 17, Page 11)

The financial analysis for 76 municipally-owned general hospitals for 1967 indicates an impost for the year 1967 on municipal authorities of \$2,209,438 as compared with \$1,577,993 in 1966 and \$405,852 in 1965. This impost is in addition to the 4 mill tax levy assessed against municipalities on an equalized tax levy by the hospitalization plan. One mill on the equalized assessment of the Province yields approximately \$2,500,000.

The increased impost in the municipal hospital sector was required to meet the increasing owners' responsibility.

TABLE 13: INCREASE IN OWNER'S RESPONSIBILITY
IN 1967 OVER 1966

Excess costs	\$ 671,050
Unapproved costs	52,199
Land improvements	339,894
Working capital	1,460,383
Excess (or deficiency) in expenditures on fixed assets over capital funds received	(1,527,048)
	<u>\$ 996,478</u>

Miscellaneous income of the hospitals in the form of interest and donations accounted for the balance of the increased requirements in 1967 over 1966 of \$365,033.

Since the point of payment in respect to grants and debenture proceeds may either precede or lag behind the actual related expenditure, the hospital owner is required to cover the gap. In the case of municipal hospitals for the year 1966, the hospitals did not receive funds prior to expenditures, which situation was reversed in the current financial year.

The difference between new financing in the form of debentures and the repayment of debentures dropped from \$4,087,969 in 1966 to \$796,720 in 1967. With the completion of the expansion program in the municipal active treatment hospital field, the demand for new debenture capital from the Alberta Municipal Financing Corporation was reduced.

2. *Approved Auxiliary Hospitals* (Table 18, Page 11)

The financial analysis of 22 municipally-owned auxiliary hospitals for 1967 indicated an impost for the year 1967 on municipal authorities of \$190,950 as compared to \$348,594 in 1966. This reduction, in spite of the fact that the owners' responsibility increased in 1967 to \$181,193 from \$70,359 in 1966 due to excess and unapproved costs, indicates the maturity of the auxiliary hospital program. The construction program in 1967 reflected an expenditure of only \$176,743 as against an expenditure in 1966 of \$1,859,476.

Contributions in the form of repayment of debentures to the Alberta Municipal Financing Corporation were made during the year of \$215,024 and no requirement was necessary for new debenture financing.

C. Voluntary Hospitals

1. *Approved General Hospitals Operated by Catholic Orders* (Table 19, Page 12)

The financial analysis of 30 active treatment hospitals owned by Catholic Orders indicated an increase

in owners' contributions of \$214,873 in 1967 as against a withdrawal of \$71,443 during 1966.

Excess and unapproved costs in 1967 amounted to \$538,595 as against \$92,813 in 1966. Funds to cover the increased owners' financial responsibilities over and above the owners' contributions were provided by both a reduction in working capital and an excess of funds received for capital asset over actual expenditures.

Expenditures on capital assets in 1967 amounted to \$13,517,839 and \$9,723,373 in 1966. The reduction in working capital of \$1,202,635 in 1966 and \$42,718 in 1967 raises the financial question of the provision for the necessary working capital to accompany the substantial increase in the fixed asset sector which to date is an owners' responsibility. This becomes significant as the excess and unapproved costs increase and owners' contributions are maintained on a restricted basis.

2. *Approved General Hospitals Operated by Voluntary Groups Other Than Catholic Orders* (Table 20, Page 12)

The financial analysis of five active treatment hospitals operated under the jurisdiction of voluntary groups other than Catholic Orders reflected an owners' contribution of \$184,776 in 1967 required to cover excess and unapproved costs of \$31,043, an increase in working capital of \$36,894, and an increase in capital assets acquired in excess of capital funds received of \$116,840. As in the previous year in this sector, the major portion of the owners' contributions arose through interest and donations.

Similar to the municipal auxiliary hospital sector, the expenditures on capital assets in 1967 amounted to \$423,018 as against \$645,767 in 1966, and no new debentures were issued.

3. *Auxiliary Hospitals* (Table 21, Page 12)

The financial analysis of six auxiliary hospitals under the jurisdiction of voluntary groups indicated a stabilized owners' contribution over the years 1965, 1966 and 1967 ranging from \$8,000 to \$10,000 each year. The owners' contribution in 1967 amounted to \$9,879.

Excess and unapproved costs in 1967 amounted to \$67,202 as against \$335 in 1966. The funds for this aspect of the owners' responsibility were provided by reduction in working capital of \$78,227 which was, in part, counterbalanced by excess of expenditures over sources of funds from the capital asset area of \$20,905.

During the year, repayment of debentures of \$85,200 occurred with no new issues of debentures. This reflects, as stated previously, a degree of stability reached in the capital construction program in the auxiliary hospital sector. With the increase in population served, this condition will change, but, insofar as the provision of new auxiliary hospital care facilities is restricted to municipal jurisdiction, this voluntary sector will not be involved.

D. *Provincially-Owned General Hospitals*

Approved General Hospitals (Table 22, Page 12)

The financial analysis of three provincially-owned general hospitals indicated a contribution of \$278,275 by the Province in the form of interest and donations in 1967. The contribution in 1966 amounted to \$125,748.

The areas of owners' responsibility involved excess and unapproved costs of \$647,000 and land improvements of \$62,428 in 1967. In 1966, the owners' areas of responsibility, other than working capital, amounted to \$289,331. The difference is accounted for mainly in the excess and unapproved costs set out above.

The year 1967 reflected a change in working capital of \$2,137,568 consisting of an increase in 1966 of \$1,511,000 and a decrease in 1967 of \$626,568, and the capital asset reflected an opposite change of \$1,861,998 consisting of an excess receipt of capital funds over capital asset expenditures of \$1,654,584 in 1966, and an excess of capital expenditures over capital funds received of \$197,414 in 1967. This situation has previously been referred to as arising from the lag in payments as between years and the temporary financing obligation which is placed upon the owners.

E. *Financial Equity in Alberta Hospitals under The Alberta Hospitalization Benefits Plan, Excluding Contract Hospitals*

The analysis of the audited financial statements of the active treatment and auxiliary hospitals operating under The Alberta Hospitalization Benefits Plan reflects a Provincial Government equity in those facilities which are operated under municipal and voluntary jurisdictions.

On the basis of the financial review of the voluntary hospital segment, it is recognized that a distinct problem exists as to the availability of funds with which to meet the present level of financial responsibility of the owners. The equity of the Provincial Government in the voluntary sector increased in 1967 to 30% from 18% in 1966.

Table 14 is presented setting out the financial equity in Alberta hospitals at 31 December, 1967.

TABLE 14: FINANCIAL EQUITY IN ALBERTA HOSPITALS OPERATING UNDER THE ALBERTA HOSPITALIZATION BENEFITS PLAN EXCLUDING CONTRACT HOSPITALS AS AT 31 DECEMBER, 1967 (IN THOUSANDS OF DOLLARS)

	Provincial Government		Owners Other Than Provincial Government		Total	
	Equity	%	Equity	%	Equity	%
Municipalities	\$27,086	57%	\$20,113	43%	\$ 47,199	100%
Voluntary Groups ..	9,166	30%	21,547	70%	30,713	100%
Provincial Government	36,016	100%	—	—	36,016	100%
	<u>\$72,268</u>	63%	<u>\$41,660</u>	37%	<u>\$113,928</u>	100%

In the above table, depreciation of assets, whether purchased by Provincial funds or municipal and voluntary funds, are applied to reduce the Provincial equity.

The owners' equity, other than the Provincial Government, is gradually declining percentage-wise over the years. In 1965 it was 43.4%; in 1966 it was 39.3%; and in 1967 it was 37%. Correspondingly, the equity of the Provincial Government is increasing.

The increase in the equity of the Provincial Government represents the extent to which Government grants for capital assets were in excess of the provision for depreciation.

The item of equity is net after reduction of outstanding debt, the repayment of which has been assumed by the Provincial Government. The significance

of the debt picture can be recognized in that out of the total net assets in the hospital area at 31 December, 1967, of \$208,347,000, the outstanding debt accounted for 45% and owners' equity 55%. If the debt is tied into the area of Provincial Government repayment, the Provincial Government interest, including repayment, represents 80% of the total net assets, and the municipal and voluntary segment represents only 20%.

F. Outstanding Debt of Approved General and Auxiliary Hospitals

The outstanding capital debt of approved general and auxiliary hospitals as at 31 December, 1967, amounted to \$94,419,000. This represents a net increase of \$55,873,000 over the amount which was outstanding as at 1 January, 1959, the date the Province assumed responsibility for the repayment of the principal and interest on the capital debt of approved hospitals on an annual basis.

Although construction of new hospital beds and renovation of existing facilities are financed in part by grants and outright payments, debentures form the major source of financing. During the last nine-year period, debentures in the amount of \$82,325,000 were issued for this purpose.

Debenture financing in 1967, as reflected in Table 4, was done completely through the agency of the Alberta Municipal Financing Corporation.

The annual repayment of debentures during the calendar year amounted to \$5,045,000 which left a net increase in debt applicable to the calendar year 1967 of \$7,291,000. It is important to note that of these redemptions \$3,772,000 applied to the outstanding debt in respect to the Provincial Treasurer and Others. During the calendar year the operations of the plan were charged with \$4,536,000 interest.

TABLE 19:
ACTIVE TREATMENT HOSPITALS - VOLUNTARY CATHOLIC ORDERS
OWNERS' CONTRIBUTION
for the year ended December 31, 1967
(30 Hospitals)

OWNERS' RESPONSIBILITY

1. Excess Costs	\$509,858.25
2. Unapproved Costs	28,736.33

OWNERS' RESPONSIBILITY UNDER THE PLAN

\$538,594.58

Responsibility Covered By:

(a) Decrease in net working capital:

Decrease in accounts receivable - patients and others	\$ 66,144.18		
Decrease in accounts receivable - Province	454,605.01		
Increase in Provincial advances	402,321.67	\$ 923,070.86	
Less:			
Increase in bank	\$ 449,135.65		
Increase in investments	352,051.46		
Increase in inventories	1,837.41		
Increase in prepaid expenses	18,423.49		
Decrease in accounts payable	58,905.18	\$ 880,353.19	\$ 42,717.67

(b) Excess of contributions to capital assets over expenditures:

Contributions:			
Issues of debentures	\$ 9,565,000.00		
Debtenture grants	1,218,146.41		
Construction grants	3,416,748.71		
Equipment grants	804,503.33		
Sale of equipment	13,734.15	\$15,018,132.60	
Less: Expenditures on capital assets:			
Buildings	\$ 12,216,377.22		
Equipment	1,301,461.90		
Repayment of debentures	1,219,289.90	\$14,737,129.02	\$281,003.58
			\$323,721.25

OWNERS' CONTRIBUTION

Contribution of funds	\$129,150.29
Interest and donations	77,800.47
Collection of prior plan accounts	6,139.68
Ancillary operations	1,782.89
	\$214,873.33

Increase in inventories	217,167.31	\$ 705,683.42	\$ 626,567.73

OWNERS' CONTRIBUTION

Interest and donations	\$ 259,826.14		
Collection of prior years' accounts	1,473.72		
Ancillary operations	16,975.12	\$ 278,274.98	

GENERAL SECTION

5. THE INDICES PROGRAM

The indices program for hospitals in the Province of Alberta was introduced at the beginning of 1965 and has been operative for the past three years. Detailed reports have been included in the annual reports of the Hospital Services Section of the Department of Health for the years 1965 and 1966 and are included in the report for 1967.

The essential purpose of the indices program was to provide comparative information to the owners of the hospitals which would be of some benefit to them in carrying out their administrative function. To date the response of the hospitals has been good. The indices are supported by periodic reports of the hospitals to the Hospital Services Section covering the results as reflected by the individual hospital in comparison with the results shown for the individual group experience.

In designing the indices the format includes 33 indicators which were deemed to be of use to the hospitals covering their sphere of operation and the collective interest in cost control and level of patient care.

Although the indices provided to the hospitals are not being utilized by all hospitals to their potential, it can be stated that as time progresses improvement in this respect is being made. Study groups have been established which in co-operation with the Alberta Hospital Association and the Hospital Services Section have aided in this progress.

The indices for the individual hospital are presented for the calendar year ended 31st December, 1967.

6. HOSPITALS OPERATING UNDER THE PLAN

A summary of the various types of institutions under the Plan as at December 31, 1967, the number of beds and the number of days of care to in-patients by responsibility for payment is indicated in Tables 24 and 25.

The diagram following on page 27 presents in graphic form the number of beds in the various classes of hospitals and the number assigned to each of the principal classifications.

TABLE 24: DISTRIBUTION OF ADULT AND CHILD PATIENT DAYS BY RESPONSIBILITY FOR PAYMENT AND TYPE OF HOSPITAL 1967

* Less than .05%

7. PAYMENTS MADE BY HOSPITAL SERVICES

Table 26 indicates that in 1967 payments by Hospital Services Section increased by \$16,802,394.00 or an increase of 18.03% over 1966. On 1 August, 1966 patient day payments to hospitals were initiated. The payment of \$3,540,390.00 in patient day payments in 1967 is for a full 12 month period, whereas, the payment of \$1,477,391.00 in 1966 is for a five month period.

8. PAYMENT OF CO-INSURANCE CHARGES BY HOSPITAL SERVICES SECTION

Under the provisions of The Alberta Hospitals Act and the Alberta Hospitalization Benefits Regulations, the co-insurance charges of certain classes of patients are paid by funds provided by the Provincial Treasury.

The amounts of the payments and number of days involved are shown on tables 26 and 27 respectively. Effective 1 April, 1967 co-insurance charges were paid for multiple handicapped persons. In 1967 a total of 5,363 days were paid or 3.1% of the total days paid.

9. THIRD PARTY LIABILITY

Where liability is involved, the Province, under the supervision of section 48 of The Alberta Hospitals Act, is entitled to recover all or part of the cost of the hospitalization paid on behalf of an eligible resident.

The following presents comparative figures of the recoveries made by the Province over the past seven years:

TABLE 29: COMPARATIVE EXPERIENCE IN OUT-OF-PROVINCE HOSPITALIZATION 1967

	1963	1964	1965	1966	1967
Number of Cases:

TOTAL PAID	\$ 544,832.29	\$ 661,968.64	\$ 649,349.35	\$ 608,709.20	\$ 731,551.93
Average Cost per Day:					
Adults and Children	\$ 18.61	\$ 19.56	\$ 21.15	\$ 22.95	\$ 25.24
Newborn	5.19	5.26	5.48	5.76	5.39

TABLE 28:

Year of Recovery	Number of Claims Paid	Total Net Recovery
1960	414	83,749
1961	587	140,948
1962	610	155,312
1963	647	156,339
1964	751	239,695
1965	740	220,440
1966	776	275,529
1967	766	269,975

During 1967 the hospitals reported over 3,800 accident admissions which resulted in 1,850 new claims for possible recovery.

During the year an amount of \$269,975.00 representing 766 claims was recovered.

Collection fees were paid on 294 out of 766 claims which amounted to \$15,464.65 or 5.5 per cent of gross recoveries.

10. OUT-OF-PROVINCE HOSPITALIZATION

The statistical and financial volume of out-of-province hospitalization benefits during any one year is measured on the basis of the claims processed during the year. Thus the data for any one year as compared to other years is subject to variations in the cut-off date and in the extent to which claims have not been submitted or if submitted, have not been processed at the cut-off date.

Total payments in 1967 exceeded those of 1966 by \$124,000.00 or about 20 per cent. About 49 per cent of this increase is due to the increases in prices charged for hospitalization outside of Alberta and 51 percent is due to the increase in the number of days.

For hospitalization in Canada, the Alberta plan pays the going standard ward rate of the hospital minus the Alberta co-insurance factor. Where hospitalization takes place outside of Canada, the maximum daily rate payable is fixed at \$25.00 or \$20.00, depending on the size of the hospital, minus co-insurance charges of \$5.00 for the first day and \$2.50 for each subsequent day. The limitation on the average daily amount payable outside Canada was designed to protect the plan from the relatively high rates in effect in many of the hospitals in the United States.

HOSPITAL SERVICES SECTION

5. Quebec	57	848	34,426.20	14.9	40.60
6. New Brunswick	8	48	1,150.20	6.0	23.96
7. Nova Scotia	34	331	9,188.55	9.8	27.76
8. Prince Edward Island	5	38	810.00	7.6	21.31
9. Newfoundland	3	13	179.00	4.3	13.77
10. Northwest Territories	243	2,236	50,334.40	9.2	22.51
11. Yukon	19	79	1,850.00	4.2	23.42
12. Alaska	6	15	303.80	2.5	20.20
13. United States and Hawaii	289	2,332	47,559.53	8.1	20.40
14. Other Countries	27	446	5,792.33	16.5	13.00
TOTAL	3,673	28,408	\$710,316.13 *	7.7	\$25.00 *

* The difference between this and the data in the table showing comparative experience is due to adjustments, payments and refunds which were not analyzed geographically and are not included here.

TABLE 32: LLOYDMINSTER

Particulars of insured hospitalization provided to Alberta residents by the Lloydminster Hospital during 1967, are as follows:

	Adults & Children	Newborn
Number of cases	1,377	165
Days of care	13,228	1,159
Average stay (days)	9.3	7.2
Total payments by Alberta	324,838	

TABLE 33: HISTORICAL SUMMARY BY TYPE OF HOSPITAL, NUMBER OF BEDS AND VOLUME OF IN-PATIENT HOSPITALIZATION IN RELATION TO POPULATION

Year	Population	Rated Capacity at December 31st		Increase in Adult and Child Beds During Year		Beds Set Up at December 31st		Adult & Child Beds Set Up in Excess of Rated Capacity		Adults and Children			Annual Rates Per 1,000 Population (Adults and Children)		
		Adult & Child Beds	Newborn Basinetts	Number	Percentage	Adult & Child	Newborn	Number	Percentage	Percentage Occupancy	Admissions Per Bed Per Year	Average Stay (Days)	Rated Bed Capacity	Admissions	Patient Days

11. GROSS EXPENDITURES — OPERATING COSTS

Table 37 presents a historical summary of the gross expenditures of approved general hospitals in respect to salaries and wages.

Tables 38 and 39 present comparative analyses of gross expenditures of approved general hospitals and auxiliary hospitals by type of expenditure in total and in patient day ratios.

APPROVED GENERAL HOSPITALS
TABLE 37: INCREASE IN GROSS EXPENDITURES OF GENERAL HOSPITALS, 1950 - 1967

Year	TOTAL GROSS EXPENDITURE			SALARIES AND WAGES

12. PERSONNEL

Table 40 indicates the number of personnel employed by general hospitals and by auxiliary hospitals as at December 31, 1967, by principal types of positions as reported by the hospitals. Additional information relative to individual hospitals are given in the Appendix tables (see Index).

Table 41 presents a summary of the number of hospital staff employed by general hospitals and auxiliary hospitals during 1967 in terms of hours for which staff were paid.

13. LABORATORY SERVICES

Table 42 presents a summary of the volume of laboratory services in hospitals during each of the past five years. Similar to last year's report, the volume is expressed in terms of units compiled on the basis of the 1960 edition of "Schedule of Unit Values for Clinical Laboratory Procedures", issued by the Dominion Bureau of Statistics. The unit of measurement is basically ten minutes of time with seven minutes being allowed for technical procedures and three for preparatory services.

Additional information for individual hospitals is supplied in Tables 51 and 52 of the Appendix.

14. RADIOLOGICAL SERVICES

Table 43 indicates a historical quantitative summary of the diagnostic radiological services in the general hospitals. 1967 has again shown a decrease in chest examinations and an increase in radiographic examinations. Radiologists continue to interpret the greater proportion of films as has been the case in the past two years. See detailed information in Table 50.

15. SURGICAL SERVICES

Table 44 presents a summary of selected quantitative information on surgical services in hospitals. Additional information concerning individual hospital experience for 1967 will be found in the Appendix Table 53.

16. OBSTETRICAL SERVICES

A summary of the volume of obstetrical work done in general hospitals during each of the past five years is given in Table 45. In 1966, for the first time since 1961, the number of obstetrical deliveries in general hospitals was greater than in the years immediately preceding. Collectively, the general hospitals reported 170 more obstetrical deliveries in 1967 than in 1966. However, this very slight increase was not evenly distributed throughout the Province. The number of deliveries in Edmonton and Calgary hospitals increased by 173 and 424 respectively, and with isolated exceptions the number of deliveries in the other hospitals continued the decline noted in recent years. The number of caesarean sections again was higher than in the preceding year. It has reached the level of slightly over four per cent of obstetrical deliveries.

17. OUT-PATIENT SERVICES

A summary of selected information concerning services provided to out-patients by general hospitals in the various size groups is shown in Table 46.

TABLE 40: GENERAL AND AUXILIARY HOSPITALS EMPLOYING SELECTED CATEGORIES OF PERSONNEL AS AT DECEMBER 31, 1967, BY SIZE GROUP

Category of Personnel	GENERAL HOSPITALS										AUXILIARY HOSPITALS

TABLE 43: VOLUME OF RADIOLOGY IN GENERAL HOSPITALS IN TERMS OF EXAMINATIONS AND FILMS

	1963	1964	1965	1966	1967
<u>IN-PATIENTS</u>					
Examinations					
Routine Chest X-ray	48,509	37,551	26,028	19,989	14,010
Other X-ray Examinations					
With Fluoroscopy	23,530	25,570	25,868	26,002	27,425
Without Fluoroscopy	185,059	208,653	222,304	243,708	268,216
Films taken	605,008	675,990	683,116	765,755	878,746
Average films per In-Patient admission	2.2	2.4	2.4	2.7	3.0
Percentage of patients having routine chest X-rays	18.2	13.7	9.4	7.1	4.8
<u>OUT-PATIENTS</u>					
Examinations	115,188	135,355	151,740	173,635	210,554
Films taken	241,982	285,085	332,882	393,330	493,214
<u>INTERPRETATION OF FILMS</u>					
Films read within the hospital					
By Radiologist	636,213	738,668	784,048	890,977	957,401
By other Physicians	64,651	55,213	57,783	64,954	70,609
Films referred out	134,224	152,937	173,746	179,592	198,878
% Interpretations made by Radiologists*	92.3	94.4	94.3	94.3	94.2

* All films referred out are assumed to have been referred to radiologists

TABLE 44: SURGICAL SERVICES IN GENERAL HOSPITALS

ITEM	1963	1964	1965	1966	1967
Number of Operations:					
In Emergency Units-In-Patients	5,746	5,498	11,637	6,827	6,805
-Out-Patients	32,622	40,216	47,005	57,972	80,459
In Operating Rooms-In-Patients	106,474	108,237	112,054	118,974	128,640
-Out-Patients	11,148	8,776	8,405	12,534	14,548
Total hours of surgery in operating rooms	97,010	98,819	99,449	102,401	108,287
Death during or after operations:					
During operations	45	38	32	36	41
Within 48 hours	172	171	132	185	178
48 hours to 10 days after	276	267	299	320	274
Post operative infections- In-Patients	625	746	835	737	1,182
Average duration of operations done in operating rooms (minutes)	49	50	50	47	45

TABLE 45: OBSTETRICAL SERVICES IN GENERAL HOSPITALS

	1963	1964	1965	1966	1967
Total deliveries	37,329	35,216	31,790	29,829	29,998
Caesarean sections	1,145	1,205	1,082	1,145	1,211
Maternal deaths	7	2	6	3	2
Stillbirths	419	442	371	347	352
Live births	37,275	35,112	31,691	29,717	29,911
Immature births	2,157	1,946	2,304	1,548	2,229
Deaths of immature newborn	361	412	380	276	297
Neonatal deaths (mature & immature)	601	595	522	415	394
Newborn with staphylococcal infections	206	131	135	183	202
RATIOS:					
Caesarean sections per 1,000 deliveries	30.7	34.2	34.0	38.4	40.4
Immature births per 1,000 births	57.2	57.7	71.9	52.1	74.5
Immature newborn deaths per 1,000 live births	9.6	11.6	11.8	9.3	9.9
Neonatal deaths per 1,000 live births	15.9	15.1	16.3	13.9	13.2
Cases of staphylococcal infection per 1,000 live births	5.5	3.7	4.2	6.2	6.8
